

## Installation manual

This installation manual provides instructions on how to download and install the SBR Viewer.

### Download

In order to install the SBR Viewer, you have to download the setup. The setup can be downloaded from the website: <http://www.sbrviewer.eu/#download>. The download is free.

- ⚡ To download the setup, click on **FREE DOWNLOAD** under the header 'Download'.
- ⚡ Depending on the browser you are using, you will be asked to save (recommended) or run the setup directly.
- ⚡ When you choose to save the setup, you have to enter a location on your hard drive to save it. Depending on the settings of your browser it is also possible, that the setup will be saved in a pre-defined download directory (for example '[...]/users/username/downloads/').

### New installation

#### Default (standalone)

After you have downloaded the setup of the SBR Viewer, you can start the installation. During the installation procedure you will be asked to agree to the terms and conditions of the SBR Viewer. Furthermore, you have to specify the name of the directory where you want to install the SBR Viewer.

You can abort the installation process at any time, by clicking on .

- ⚡ Open the setup file (*SBRViewer.exe*), to start the installation process. After you opened the setup file, a wizard will be launched.
- ⚡ The first screen of the wizard welcomes you and provides information about the version you are about to install. To continue, click on .
- ⚡ The second screen presents the license agreement. After you have read this agreement carefully, you have to accept it. To accept the agreement click on . If you don't accept the agreement click on , the setup will be closed.
- ⚡ During the installation procedure 'Visual Dataflex files' will be installed. To install those files you have to accept another agreement. This agreement is presented in the third screen of the wizard. Read and accept this agreement to continue the setup.

- ⚡ In the fourth screen of the wizard you can specify the name of the directory where you want to install the SBR Viewer. To change the default installation directory, click on . After you have specified the name of the directory, click on . The setup will now start to install the SBR Viewer.
- ⚡ When the installation process is finished you have to click on  to exit.
